## Dr. Miles' Heart Cure

Cures a Prominent Attorney.

MR. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs for doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

## ENJOYED THE TRIP NORTH

Will Not Assume Control of Camp Wikoff at Present—He Doesn't Care to Discuss the Alger-Miles Controversy—Red Cross Nurses Did Some Very Good Work on the Field.

New York, Sept. 2.—The transport City of Mexico, with General Shafter and staff on board, arrived last evening and cast anchor in Fort Pond bay. The crew was detained for an inspection. General Shafter is now, strictly speaking, by reason of rank, in command of Camp Wikoff, but he will not assume the reins of control until his term in the detention camp is finished. In an interview General Shafter said: "I enjoyed the trip north on the Mexico, greatly, but more so on account of the ship being a prize. From a casual observation, I like Camp Wikoff. It seems just a place as I should have selected. I will soon acquaint myself thoroughly with all the details of the camp."

"I knew nothing of the Miles-Alger controversy until I was shown a newspaper on my arrival here. I will not discuss it, now, that I am unfamiliar with the phases of the case, nor will I enter the controversy at any time. Secretary Alger and General Miles can take care of themselves, and so can I."

"The Red Cross and other nurses did good work at Santiago, but the front is hardly the place for women. There was never any real scarcity of food in Cuba, but there were no transportation facilities to get supplies to the front, other than packtrains. "The army and sick in hospitals down there fared as well as possible in such a climate."

When told that it had been denied that there was yellow fever at the camp at Santiago, General Shafter said that it was nonsense as there was yellow fever there and the doctors in Santiago, who knew it like a book, said it was yellow fever and nothing else. Santiago was on the mend, the general said, and the sanitary measures taken by the Americans were having a good effect.

## CABINET DEADLOCK.

Spanish Officers Not Yet Named—Other News From Spain.

Madrid, Sept. 2.—The deadlock over the appointment of the members of the peace commission continues. The cabinet sat last evening in concert, the queen regent presiding. Senor Sagasta, the premier, made a statement as to foreign policy.

Lieutenant General Correa, minister for war, read a dispatch from General Rios, acting governor general of the Spanish territory in the Philippine Islands, announcing that he had acceded to Admiral Dewey's request to open

Philippine ports, subject to ratification by the Madrid government.

Senor Sagasta, according to El Heraldo is trying to persuade the Duke of Tetuan, now leader of the dissident Conservatives, to join the peace commission.

Several members of the chamber of deputies have expressed a strong belief that a cabinet crisis will follow immediately on the meeting of the cortes.

## Protests Against War Tax.

London, Sept. 2.—The Madrid correspondent of The Daily Chronicle says: "The lower classes are deeply and perhaps dangerously impressed by the ghastly appearance of the repatriated soldiers from Santiago de Cuba."

"All Catalonia protests against the continuance of the special war taxes and insists upon their immediate repeal, threatening to close all the factories if this demand is not complied with."

## Ruling On Army Canteens.

Washington, Sept. 2.—A ruling defining the tax requirements of liquor dealers at army canteens is made by Commissioner of the Internal Revenue Scott, in a letter written to the collectors of the service. The decision holds that the special tax of a retail liquor dealer, or malt liquor dealer, as the case may be, is required to be paid for the sale of alcoholic liquors at army canteens, if the canteens are not government agencies and the sales of liquor there are made for individual profit.

## Auxiliary Cruiser Returned.

Washington, Sept. 2.—The navy department will today deliver at Crumps in Philadelphia the four vessels formerly known as the New York, Paris, St. Louis and St. Paul. The ships are to be restored by the Crumps to the exact condition in which they were when taken by the navy department for use in the war.

## NO OBJECTIONS.

Macias Gives Brooke Permission to Travel Overland.

Ponce, Porto Rico, Sept. 2.—General Brooke has notified Captain General Macias, the Spanish commander at San Juan de Porto Rico, under a flag of truce carried to the Spanish lines by Colonel Goethal, that Rear Admiral Schley and General Gordon, the American-Porto Rican peace commissioners, had sailed for San Juan from New York on the steamer Seneca. At the same time General Brooke, who is also a member of the commission, asked if there was any objection to his proceeding overland with an escort. Major Jose Reyes of the Spanish army, brought the reply of General Macias. It was sent by wire and said there were no objections. Consequently General Brooke has arranged to leave tomorrow with his staff, escorted by Troop H, of the Sixth Cavalry, and Captain Pitcher's company of the Eighth Infantry.

Several stone culverts between the Spanish works, on the crest of the mountains, which have been blown up, are being repaired by Colonel Goethal's engineers. The colonel has examined the Spanish fortifications. He says they are marvelously strong and that he could have held back the strongest army in Europe with 500 men against an assault in front. The Spaniards had trenches and two guns. All but 100 of the 600 men stationed there have returned to San Juan.

## ARMY DEATHROLL.

Statistics Showing Fatalities In the War With Spain.

Chicago, Sept. 2.—The Tribune prints statistics showing the number of soldiers who have been killed in battle and have died of disease in camps during the war with Spain. The Tribune says: "While 350 officers and men have been killed in battle or died of wounds received, there have died of disease in camps between 1,200 and 2,000 volunteers and regulars. The Tribune has secured the names of 1,394 who died in camp, on transports or at home after contracting the dread malarial fever of the camps."

There is no doubt about the 1,394 whose names have been secured. Neither is there much doubt that there are hundreds dead whose names could not be secured on account of lack of records and the inability or unwillingness of army officers to furnish lists of the dead.

Deaths are attributed to the following causes: Typhoid fever, 515; yellow fever, 84; dysentery, 63; meningitis, 47; malaria, 81; pneumonia, 61; cause reported as fever, 106; miscellaneous ailments, or diagnosis not reported, 337.

## Harrowing Tales.

Little Rock, Sept. 2.—Two sleeping cars loaded with Arkansas volunteers on 30-day sick furloughs passed through the city last night enroute to their homes in various parts of the state. Several of them were very sick but they were unattended by physicians and no arrangements had been made for their care. Some harrowing tales are told by the soldiers of their treatment at Camp Thomas, and the men assert that conditions at Chickamauga have not been exaggerated.

## Terms Not Agreeable.

New York, Sept. 2.—Captain Enlate, who was in command of the Viscaya when she was sunk off Santiago, visited the office of the North German Lloyd Steamship company, yesterday and held a conference with the agent of the line with regard to transporting Spanish prisoners home. No satisfactory terms were agreed upon, however, and Captain Enlate said he would look elsewhere.

## Lieutenant Morgan Drowned.

Savannah, Ga., Sept. 2.—Lieutenant H. S. Morgan, U. S. engineer corps, in charge of the fortification work on Tybee island, and Henry Smith, a rigger, were drowned in Calabogue sound Wednesday afternoon in an effort to rescue the crew of the ill-fated Norwegian bark, Noe, which went ashore and was lost on Dautanskie beach.

## Generals Merritt and Greene.

London, Sept. 2.—The United States transport China, according to a dispatch from Hong-Kong to The Daily Mail, has arrived there with General Merritt and General Greene, the former enroute for Paris, to attend the proceeding of the Hispano-American peace committee, and the latter enroute to Washington.

## Lawton's Health Report.

gian bark, Noe, which went ashore and was lost on Dautanskie beach.

## IRREGULAR METHODS

Used by Bidders to Secure Government Bonds on the Last Call.

## TO MAKE INVESTIGATION

Solicitor O'Donnell Has Been Working on the Matter and Has Made His Report to Secretary Gage—Facts Withheld From Publication at Present For Prudential Reasons.

Washington, Sept. 2.—A wide investigation of suspicious bids under the last call for subscriptions to government bonds has been completed by Solicitor O'Donnell of the treasury department and yesterday he submitted to Secretary Gage the mass of testimony on the transactions. Several thousand subscribers were examined. The facts developed show a systematic scheme operated by single parties to secure a large amount of the bonds.

The investigation was the outcome of complaints alleging wrongful dealing on the part of many bidders. Secretary Gage promptly instituted the investigation and Solicitor O'Donnell yesterday, after submitting his report, held a conference for two hours with the secretary on the developments.

The reports indicate that millions of dollars in bonds were acquired by irregular means and that a number of New York bidders are involved in the cases. Many of the bids received from New York are shown to have been either signed by individuals who had no direct interest in them and subscribed their names simply at the request of, or in consideration of compensation by other parties, or the bids bore signatures that were forgeries.

Many of the bidders, it is stated, were hired to sign and the system was carried so far, the report goes to show, that virtual agents were employed who were paid so much per subscriber, the last named merely signing his name and giving the bid with his signature to the agent or directly to the party seeking control of a large amount of bids. The report and the exact facts are withheld from publication at this time for prudential reasons, but Solicitor O'Donnell says: "There is a large amount of fraudulent bids."

It is stated a further investigation is to be made and that the facts developed will be followed in action by the secretary. This may result in a refusal to issue bonds in all cases found to have been illegal.

Secretary Gage said last night the investigation showed that a large amount of the bids offered were not bona fide, but that in none of the cases involved in the investigation had the bonds been issued to the bidders. He said he had no doubt, however, that in some instances, as yet undiscovered, bonds had been issued in a similar way, unknowingly to the department, had been issued.

## GOVERNMENT LEDGER.

Statement of Receipts and Expenditures For August.

Washington, Sept. 2.—The monthly statement of receipts and expenditures of the government for August shows that the receipts from all sources aggregated \$41,782,707, an increase of \$2,729,093 over August, 1897.

The receipts from the several sources of revenue follow: Customs, \$16,249,699; internal revenue, \$24,015,934; miscellaneous, \$1,517,073.

The expenditures for the month aggregated \$56,200,717, an increase of \$2,167,670. The heavy increase on both sides of the ledger are due to the war expenditures on one side and the internal revenue law on the other.

## Recommendation Compiled With.

Washington, Sept. 2.—Governor Tanner has recommended to the war department that the Illinois regiments which have armories be sent direct to those armories, instead of Springfield, to be mustered out. Those having no armories will go to Springfield. This recommendation is to be complied with by the department.

## Believed to Have Been Murdered.

Heinsaw, Ky., Sept. 2.—There is excitement here over the death of David Davis, an old farmer, who was found dead on his knees in his stable with a rope around his neck. There is a suspicion that he was murdered and the body placed in the position in which it was found to indicate suicide.

## Diabetes Caused His Death.

San Francisco, Sept. 2.—Particulars concerning the recent death of General Carlos Diaz Gutierrez, who was the governor of the state of San Luis Potosi, Mexico, have reached this city. Governor Gutierrez for some time past had been a sufferer from diabetes, and to this was due his demise.

## Assaulted a Little Girl.

Washington, Ind., Sept. 2.—M. F. Burke, president of the People's National bank, has been appointed receiver of the electric street car line.

## Weather.

Indiana—Fair and continued high temperature, followed by showers; cooler in northern portions.

## STAYING UP NIGHTS

Watching Property From the Fire Fiends Torch—Situation Alarming.

Mt. Sterling, Ky., Sept. 2.—The fire fiend situation here has grown alarming. That a deliberate attempt is being made to burn this city no one denies. In the past two weeks there have been about 30 fires, and thousands of dollars' worth of property has been destroyed. A close search has just disclosed the fact that several houses had been fixed ready for the torch. The regular police force is worn out with watching for the fiends, and many citizens are up at night watching their property. No one can imagine why the crime is being done, as no certain person's property is being set on fire. People are wild with excitement, and if the guilty parties should be caught they will be lynched.

## Appeal to Governor Tanner.

Springfield, Ills., Sept. 2.—President Hunter and Secretary Ryan, United Mine Workers of Illinois, called on Governor Tanner yesterday. Hunter has just returned from Birmingham, Ala., where he has been striving to prevent further importation of negroes to take the place of white miners. The miners' officers urged Governor Tanner to exercise the power of his office to prevent any more negroes being imported into Illinois.

## Battery Called Out.

Galesburg, Ills., Sept. 2.—Battery B of the Illinois National guard received orders last night to leave at once for Pana, Ills. Sixty men with five Gatling guns, under command of Lieutenant Frank Henry, started immediately on a special train. Trouble between the striking coal miners and deputy sheriffs is feared because of the efforts of the mine operators to import colored miners.

## Cable to the Philippines.

New York, Sept. 2.—At a meeting of the directors of the Pacific Cable company held in this city plans were considered for establishing cable communication with the Philippines, the Asiatic coast, Japan and Australia via Hawaii. Surveys for a duplicate cable via Sitka and the Aleutian islands were ordered. James A. Scrymgeour, president of the Pacific Cable company, will sail from Vancouver for Japan on Sept. 12.

## Wholesale Shooting.

Lexington, Ky., Sept. 2.—On Jack's creek William Brock, a tobacco planter, tried to exterminate the Smith family in that vicinity. Three Smith brothers quarreled with Brock over the division of a tobacco crop. Brock fatally shot the trio with buckshot, none fatally, however. Worley Smith is in the hospital here, and will likely lose his arm.

## Wounded In Haymarket Riot.

Chicago, Sept. 2.—Nicholas J. Shannon, one of the police officers who, May 1, 1886, helped to quell the Haymarket riot, is dead. The cause of death is undoubtedly the many wounds he received from the fragments of the bomb thrown by the anarchists. From the day of the Haymarket riot to the day of his death he was a sufferer from these wounds.

## Burned Rapidly.

St. Louis, Sept. 2.—Early this morning the 6-story brick building of the A. Geisel Manufacturing company took fire and within 20 minutes was destroyed. Loss, \$100,000.

## Treasury Statement.

Miss Winnie Davis, who has been seriously ill at Narragansett Pier with gastritis, is much improved. She is now able to take nourishment, for the first time in several days.

The bankruptcy of E. D. McConky is announced in London, with liabilities estimated at \$500,000. He was formerly a railroad contractor in New York and failed in Baltimore during the year 1877.

Madrid, Sept. 2.—The deadlock over the appointment of the members of the peace commission continues.

The cabinet sat last evening in concert, the queen regent presiding. Senor Sagasta, the premier, made a statement as to foreign policy.

Lieutenant General Correa, minister for war, read a dispatch from General Rios, acting governor general of the Spanish territory in the Philippine Islands, announcing that he had acceded to Admiral Dewey's request to open

Ah, that sad moment when we hear Death's awful pinions hovering near Above the one we hold most dear.

We know that death must sooner or later come to all, but we can never surely foretell when the dread angel will appear. No matter how imminent the summons may seem, it may still, in God's good providence, be far away.

It is part of man's humanity to man himself, to avert sickness and death, and to save as far as lies in mortal power. Nearly thirty years ago, an institution was founded in Buffalo, N. Y., known as the Invalids' Hotel and Surgical Institute, which has since become one of the most famous institutions in the world for its enormous benefits to the sick and suffering all over the United States. Thousands have come there for treatment and tens of thousands have received professional advice by mail with suggestions for inexpensive home-treatment, whereby they have been cured of severe, and in many instances, apparently hopeless diseases.

A Massachusetts man, Mr. John Brooks, of Boylston, Worcester Co., writes: "About a year ago I was taken with a bad cold which settled on my lungs. The doctors said I was in consumption and could not get well. I took Golden Medical Discovery, and it did me no good. I had taken your medicine and it saved my life. I felt so sick when I wrote to you that I thought I would not live through the winter. In the morning I raised an awful lot and would spit all the time and had pains in my chest. My bowels would not move more than once or twice a week; my strength was nearly gone; I could not do a whole day's work. Now my bowels are regular every day and I feel no more pain in my chest. I feel a great deal stronger. I am working in the world, and I thank you for the medicine and I love my thanks to Dr. Pierce's Golden Medical Discovery. I know it saved my life."

The most difficult diseases to cure are those which are aggravated by constipation. In such cases Dr. Pierce's Pleasant Pellets should be taken in conjunction with the "Discovery." They never gripe. All good dealers sell them.

## NO OBJECTIONS.

Macias Gives Brooke Permission to Travel Overland.

Ponce, Porto Rico, Sept. 2.—General Brooke has notified Captain General Macias, the Spanish commander at San Juan de Porto Rico, under a flag of truce carried to the Spanish lines by Colonel Goethal, that Rear Admiral Schley and General Gordon, the American-Porto Rican peace commissioners, had sailed for San Juan from New York on the steamer Seneca. At the same time General Brooke, who is also a member of the commission, asked if there was any objection to his proceeding overland with an escort. Major Jose Reyes of the Spanish army, brought the reply of General Macias.

It was sent by wire and said there were no objections. Consequently General Brooke has arranged to leave tomorrow with his staff, escorted by Troop H of the Sixth cavalry, and Captain Pitcher's company of the Eighth infantry.

Several tone civilities between here and the Spanish works, on the crest of the mountains, which have been blown up, are being repaired by Colonel Goethal's engineers. The colonel has examined the Spanish fortifications. He says they are marvelously strong and that he could have held back the strongest army in Europe with 500 men against an assault in front. The Spaniards had trenches and two guns. All but 100 of the 600 men stationed there have returned to San Juan.

## ARMY DEATHROLL.

Statistics Showing Fatalities in the War With Spain.

Chicago, Sept. 2.—The Tribune prints statistics showing the number of soldiers who have been killed in battle and have died of disease in camps during the war with Spain. The Tribune says: While 350 officers and men have been killed in battle or died of wounds received, there have died of disease in camps between 1,200 and 2,000 volunteers and regulars. The Tribune has secured the names of 1,234 who died in camp, on transports or at home after contracting the dread malady at one of the camps.

There is no doubt about the 1,234 whose names have been secured. Neither is there much doubt that there are hundreds dead whose names could not be secured on account of lack of records and the inability or unwillingness of army officers to furnish lists of the dead.

Deaths are attributed to the following causes: Typhoid fever, 515; yellow fever, 84; dysentery, 63; meningitis, 47; malaria, 31; pneumonia, 61; cause reported as fever, 106; miscellaneous ailments, or diagnosis not reported, 327.

## Harrowing Tales.

Little Rock, Sept. 2.—Two sleeping cars loaded with Arkansas volunteers on 30-day sick furloughs passed through the city last night enroute to their homes in various parts of the state. Several of them were very sick but they were unattended by physicians and no arrangements had been made for their care. Some harrowing tales are told by the soldiers of their treatment at Camp Thomas, and the men assert that conditions at Chickamauga have not been exaggerated.

## Terms Not Agreeable.

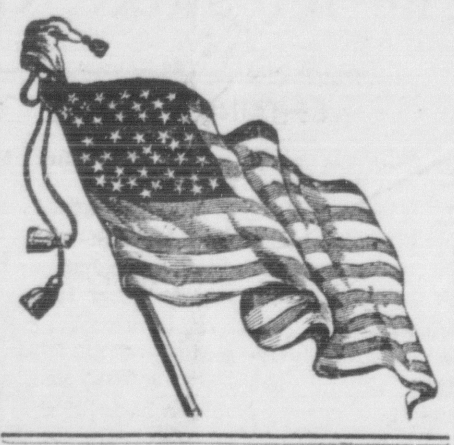

New York, Sept. 2.—Captain Eulato, who was in command of the Viscaya when she was sunk off Santiago, visited the office of the North German Lloyd Steamship company, yesterday and held a conference with the agent of the line with regard to transporting Spanish prisoners home. ## IRREGULAR METHODS

Used by Bidders to Secure Government Bonds on the Last Call.

## TO MAKE INVESTIGATION

Solicitor O'Donnell Has Been Working on the Matter and Has Made His Report to Secretary Gage—Facts Withheld From Publication at Present For Prudential Reasons.

Washington, Sept. 2.—A wide investigation of suspicious bids under the last call for subscriptions to government bonds has been completed by Solicitor O'Donnell of the treasury department and yesterday he submitted to Secretary Gage the mass of testimony on the transactions. Several thousand subscribers were examined. The facts developed show a systematic scheme operated by single parties to secure a large amount of the bonds.

The investigation was the outcome of complaints alleging wrongful dealing on the part of many bidders. Secretary Gage promptly instituted the investigation and Solicitor O'Donnell yesterday, after submitting his report, held a conference for two hours with the secretary on the developments.

The reports indicate that millions of dollars in bonds were acquired by irregular means and that a number of New York bidders are involved in the cases. Many of the bids received from New York are shown to have been either signed by individuals who had no direct interest in them and subscribed their names simply at the request of, or in consideration of compensation by other parties, or the bids bore signatures that were forgeries.

Many of the bidders, it is stated, were hired to sign and the system was carried so far, the report goes to show, that virtual agents were employed who were paid so much per subscriber, the last named merely signing his name and giving the bid with his signature to the agent or directly to the party seeking control of a large amount of bids. The report and the exact facts are withheld from publication at this time for prudential reasons, but Solicitor O'Donnell says: "There is a large amount of fraudulent bids."

It is stated a further investigation is to be made and that the facts developed will be followed in action by the secretary. This may result in a refusal to issue bonds in all cases found to have been illegal.

Secretary Gage said last night the investigation showed that a large amount of the bids offered were not bona fide, but that in none of the cases involved in the investigation had the bonds been issued to the bidders. He said he had no doubt, however, that in some instances, as yet undiscovered, bonds had for in a similar way, unknowingly to the department, had been issued.

## GOVERNMENT LEDGER.

Statement of Receipts and Expenditures For August.

Washington, Sept. 2.—The monthly statement of receipts and expenditures of the government for August shows that the receipts from all sources aggregated \$41,782,707, an increase of \$22,729,093 over August, 1897.

The receipts from the several sources of revenue follow: Customs, \$16,249,699; internal revenue, \$24,015,934; miscellaneous, \$1,517,073.

The expenditures for the month aggregated \$56,300,717, an increase of \$21,672,670. The heavy increase on both sides of the ledger are due to the war expenditures on one side and the internal revenue law on the other.

Recommendation Complied With. CONVENTION CALL.

Whereas a majority of the democratic voters of Jackson county have repudiated a so called democratic primary election and the nominees of said primary election, which was in its rules and regulations governing said primary, so unfair, unjust and undemocratic that more than three-fourths of the democratic voters of the county refused to recognize the said primary or participate in said primary election, and

Whereas the republican county central committee at a regular and full meeting of the committee, held in Seymour on the 18th day of August, 1898, declared themselves as willing to affiliate with all voters of Jackson county who were opposed to the so called democratic ticket and appointed a committee of five members of their county committee to confer and arrange with a like committee of five democrats, as to time, manner, etc., of holding a convention of the independent voters of Jackson county, therefore be it resolved by this joint committee of five democrats and five republicans:

ANNOUNCEMENT.  
FOR CLERK.

JAMES W. LEWIS, of Vernon township, is a candidate as a republican for county clerk on the fusion ticket hereafter to be named.

Prof. Charles Elliot Norton has probably taken his advance degree abroad. He finds too many things to criticize in the government of his own country.

"Millions for sick soldiers, but not a cent for democratic campaign trickery, is the proper attitude to assume toward a prominent question of the day."

Even though Bailey is the democratic leader in the house of representatives he is evidently not the leader of his party in his own state, Texas.

The democrats are looking for some good excuse to drop the 16 to 1 argument. The hardships of soldier life they seem to think will be a good subject for them to talk about.

That little coterie of bosses who have either held the offices in Jackson county or dictated who should hold them for so many years are on the run. They begin to realize that their high handed methods are not approved by the people and that the ticket to be nominated September 17, will be triumphantly elected.

It is the truth that the people want. Sensational stories about the condition of our troops in camp may be made to read well, but that is not sufficient. The people want the facts as they really exist. They will be satisfied with nothing else. It is quite evident now that much of the criticism is partisan, and that the party of fault finders are searching for some good excuse to drop the 16 to 1 heresy.

Gen. H. V. Boynton is a soldier of large experience and a man of unusual knowledge of public affairs. He is well known as a writer and noted for his careful investigation and conscientious statements. After a full examination of the situation at Camp Thomas he makes his official report on the camps at Chichamauga since their establishment a few months ago. About 75,000 troops have been assembled there. Of this immense number 122 have been buried in the national cemetery. Comparatively speaking, the mortality has been low. There have been outrageous exaggerations set afloat and Gen. Boynton's report refutes them with convincing clearness.—Globe Dem.

Stood Death Off.  
E. B. Munday, a leading attorney, of Henrietta, Tex., tells how he once fooled a grave-digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters and he was soon much better. He quit using it too early and had a relapse; again took the bitters until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50 cents at W. F. Peter's Drug Store.

Johnson county fair excursions via Pennsylvania lines, Aug. 30th to Sept. 3d, inclusive, low rate excursion tickets will be sold to Franklin from Seymour Indianapolis, North Vernon and intermediate ticket stations. Return course good Sunday, Sept. 4th.

A CRITICAL TIME  
DURING THE BATTLE OF SAN TIAGO.

Sick or Well, a Rush Night and Day.

The Packers at the Battle of Santiago de Cuba were all Heroes. Their Heroic Efforts in Getting Ammunition and Rations to the Front Saved the Day.

P. E. Butler, of pack-train No. 3, writing from Santiago, De Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect savior of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our packtrain before we left Tampa and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by C. W. Milhous.

Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about as much as coffee. 15 and 25c.

SPRAINS.

Why They Are So Severe and How They Should Be Treated.

It is commonly said that a sprained joint is worse than a broken bone, and this is often true, for in a severe sprain the injury is really greater than in a simple fracture. The ankle is perhaps the most frequently sprained of all the joints, though the knee, elbow and wrist are also very liable to be injured, in falls especially.

A sprain of a joint varies greatly in severity. It may consist of a simple wrench, without the tearing of any of the ligaments, or it may be a more extensive injury, stopping just short of a dislocation.

In a moderately severe case one or more of the ligaments of the joint will be torn slightly, or possibly completely across. The membrane beneath the ligaments, which retains the lubricating fluid of the joint, will be ruptured, permitting the escape of more or less of this fluid into the parts about, and giving rise sometimes to a considerable swelling. This swelling may be increased also by an effusion of fluid into the joint, especially if inflammation sets in, and finally there is usually a slight or even sometimes a quite pronounced escape of blood into the tissues, and this, gradually working to the surface, appears as a black and blue stain.

In more severe cases the tendons passing over the joint and attaching the muscles which move it to the bones may suffer considerable damage, or one of them may be broken or torn from its attachment, bringing with it a sliver of bone. Where so much harm has been done to all the parts—bones, ligaments, tendons and muscles—it is easy to understand that much pain will result and that the cure will be tedious.

In the treatment of a sprain the first thing to be aimed at is to relieve pain and prevent inflammation, then to favor healing of the torn structures, and after that to restore the use of the limb.

The first of these objects is accomplished by absolute rest of the injured part, the limb being raised, and by lead and opium wash, a spirit lotion, or such other local applications as the physician may prescribe. Swelling is prevented in a measure and pain is sometimes relieved by firm bandaging with a flannel bandage.

When the swelling, heat and pain are gone, the limb should not be used too soon, but should be brought gradually back to health by cold douching, dry rubbing in a direction toward the body and passive motion. It is sometimes necessary in very severe cases to treat the sprain by means of splints, exactly as if it were a fracture or dislocation.—Youth's Companion.

INQUISITIVE SPARROWS.

They May Have Been Hostile, but They Didn't Dare Attack the Cockatoo.

There was trouble and to spare one day last week in a back yard on Brooklyn Heights. The cause of it was an innocent cockatoo which had flown away from home and found its way to the top of a tree near State street, between Henry street and Garden place. Where the strange bird came from there is no body to tell.

It was first discovered by the large and noisy colony of English sparrows which inhabit that vicinity. The first sparrow to see the foreigner lost no time in communicating the news of its discovery to its mates, and in three minutes no less than 50 sparrows had assembled to examine the strange visitor and exchange views about him. They took places on all sides of the cockatoo and began a chattering which soon attracted attention from all the neighboring windows. They hopped about from branch to branch, but never approached nearer than a yard to the puzzled stranger. For a time the cockatoo viewed the conclave about him with serenity, but the strain became too much for him, and finally found expression in a series of the most penetrating screeches, accompanied by the elevation of his light green plumage, which had previously been partly concealed in his fluffy, snow white feathers. This demonstration added threefold to the wonderment and fright of the sparrows and increased the volume of their chattering in like proportion.

But the unwelcome foreigner soon found that the chattering was harmless, and that the sassy sparrows lacked the courage to make an attack. Finding himself surrounded on all sides by the little nuisances, he gradually worked his way through one side of the circle and out on the end of a branch, where he perched contentedly and viewed his tormentors with the calmest indifference. Having found that the intruder would neither take nor give offense, the sparrows were by no means away, leaving the cockatoo to take a nap in peace and quiet.

Meanwhile the cat colony of the back yard had been aroused by the unusual activity of the feathered tribe, and there had been a gradual concentration of the feline forces near the base of the tree which formed the cockatoo's perch. This meant a cat fight as sure as preaching, and it was not long before the hostilities broke out. Then the dogs had their turn, and the cats disappeared, but to the last the cockatoo sat unruffled in his feathers in the tree top.—New York Sun.

CORONATION SERVICES.

Centre of Land on Condition of Personal Duty to the Sovereign.

Florence Hayward describes Queen Victoria's coronation roll in The Century. The writer says:

After telling how the privy council was formed into a commission "to hear the petitions of the lords, great men, nobles, knights and other with regard to services, duties, attendances, offices, fees and rights connected with the coronation of coronation," the roll states what these petitions were, or at least such of them as were granted.

One was that the Duke of Norfolk, who claimed "the right to find for the queen on her day of coronation a glove for her majesty's right hand and to support the queen's right arm on the same day as long as her majesty shall hold in her hand the royal scepter, the petitioner holding the manner of Workship by the aforesaid services." In other words, if the Duke of Norfolk had failed to provide the glove or to support her majesty's arm at that particular time his ownership of Workship Manor would have been invalidated and the property have reverted to the crown.

Another petition was that of Barbara, Baroness Grey de Ruthyn, who, as the head of her family, claimed the right to carry the great spurs before her majesty on the day of her coronation and asked that George, Lord Byron, be appointed her deputy for the performance of the duty.

Yet another was that of Francis twelfth earl of Huntingdon. The earl dom of Huntingdon had remained suspended for many years owing to the tenth earl dying without issue. When, however, this twelfth in the line of succession succeeded in establishing, as a descendant of the second earl, his right to the peerage, he also claimed the right to carry one of the four swords of state in the coronation procession, this, as well as other duties and services connected with the ceremony, being the condition of his tenure of lands. Small wonder, then, that in announcing the omission of the procession it was important to set forth also that the non-performance of duties connected with it should entail no forfeitures.

Latinized English.

There was a period in the history of English literature, says Professor Mark H. Liddell in The Atlantic, when the ideal of a perfect sentence was one in which English thought was so run into a classic mold as to make the English reader stand on his head to see the meaning of it. That was because the obvious fact in most Latin sentences was a periodic structure. It was an easy road to beautiful expression to assume this perfection for English sentences and make them conform to it. Men shut their eyes to a multiplicity of form in English writing which they did not understand and chose out of a foreign tongue a single form which they did. In the same way a false type of beauty has often been set up in high places where men should look for a real one.

Socialistic Extremes.

Wallace—The very idea of socialism is ridiculous.  
Perry—Do you really think so?  
Wallace—Of course I do. Just fancy your clothes not belonging to yourself, but to the common stock. That sort of thing is all right with umbrellas and cigars, but it ought to go no further.—Cincinnati Enquirer.

Omnibuses were originally started in Paris in 1662. They died out, however, and were not revived till 1827. Two years later they were adopted in London.

Asiatic cholera was first supposed to have originated from the consumption of uncooked rice and was called "the rice disease."

Japanese Love For Children.

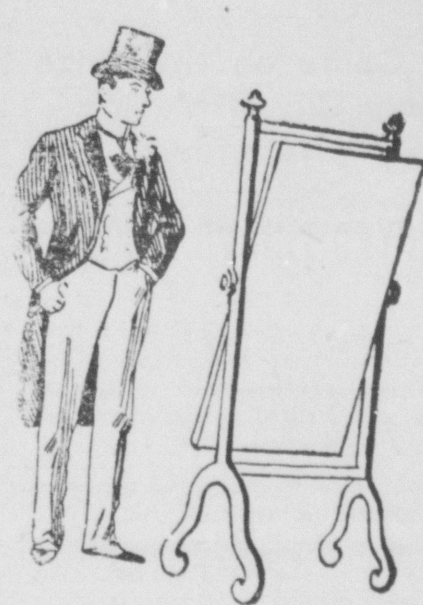

Next to their frugality and exquisite neatness a remarkable thing about the Japanese is their great love for the little folks. They have an extraordinary talent for making their doll babies happy. They are forever inventing comical toys and designing fantastic little playthings to amuse them. With us the grandfathers and grandmothers are the children's playfellows and best friends. Over in the sunny little empire all the world has nothing more important to do than to provide the pleasure of his own child or the Mr. Little Boy or Miss Little Girl of his neighbor, as they are always called. At the bazaar, on fete days, at festivals and concerts, the indescribable little creatures are seen pick-a-back, with their sweet, round yellow arms tightened lovingly about some big sister's or big brother's neck. They have peppered jam, iced beans and pickled sweetmeats to their hearts' content, delicious tarts jellied to laurel or lemon leaf, and as many dolls, kites and colored lanterns as they can possibly carry away from the booths.—Tokyo Letter.

Twenty Stories of Mark Twain.

Mark Twain's next famous man to be "anecdotalized," by the Ladies Home Journal, and his closest friends have contributed twenty funny stories about the humorist for the article. The stories will show that all the good things about Mark Twain have not been told. Several ludicrous "snap shot" pictures of Mark Twain have also been loaned by his friends—all printed for the first time.

Klondike Experience.  
A young man who left here last fall

the many similar days experience of  
prospectors in that region. He says:  
"Easter Sunday was our last day on the  
Skaguay side of the summit. Arose at 3  
o'clock, ate breakfast at 4 o'clock, pack-  
ed up our stuff at Camp 4th, four miles  
below the summit, left at 6 o'clock, pulled  
our loads of about 300 pounds each on  
our sleds up that almost perpendicular  
trail, and reached the summit at 12  
o'clock. Five of us had six biscuits for  
dinner and started down to Log Cabin, 16  
miles from the summit, reaching there  
at 9 p. m. We were positively so tired  
that we could not put up a tent. And  
though six baking powder biscuits was  
all we had to eat since breakfast we  
were too tired to cook, but just rolled  
out our bedding on the snow and piled  
in. The next morning we could hardly  
squirm out of bed."

## Klondike Experience.

A young man who left here last fall for the Klondike country recites one of the many similar days experience of prospectors in that region. He says: "Easter Sunday was our last day on the Skaguay side of the summit. Arose at 3 o'clock, ate breakfast at 4 o'clock, packed up our stuff at Camp 4th, four miles below the summit, left at 6 o'clock, pulled our loads of about 300 pounds each on our sleds up that almost perpendicular trail, and reached the summit at 12 o'clock. Five of us had six biscuits for dinner and started down to Log Cabin, 16 miles from the summit, reaching there at 9 p. m. We were positively so tired that we could not put up a tent. And though six baking powder biscuits was all we had to eat since breakfast we were too tired to cook, but just rolled out our bedding on the snow and piled in. The next morning we could hardly squirm out of bed."

Will Not Assume Control of Camp Wikoff at Present--He Doesn't Care to Discuss the Alger-Miles Controversy--Red Cross Nurses Did Some Very Good Work on the Field.

New York, Sept. 2.--The transport City of Mexico, with General Shafter and staff on board, arrived last evening and cast anchor in Fort Pond bay. The crew was detained for an inspection. General Shafter is now, strictly speaking, by reason of rank, in command of Camp Wikoff, but he will not assume the reins of control until his term in the detention camp is finished. In an interview General Shafter said: "I enjoyed the trip north on the Mexico, greatly, but more so on account of the ship being a prize. From a casual observation, I like Camp Wikoff. It seems just a place as I should have selected. I will soon acquaint myself thoroughly with all the details of the camp. "I knew nothing of the Miles-Alger controversy until I was shown a newspaper on my arrival here. I will not discuss it, now, that I am unfamiliar

Philippine ports, subject to ratification by the Madrid government. Senor Sagasta, according to El Herald, is trying to persuade the Duke of Tetuan, now leader of the dissident Conservatives, to join the peace commission. Several members of the chamber of deputies have expressed a strong belief that a cabinet crisis will follow immediately on the meeting of the cortes.

Protests Against War Tax. London, Sept. 2.--The Madrid correspondent of The Daily Chronicle says: "The lower classes are deeply and perhaps dangerously impressed by the ghastly appearance of the repatriated soldiers from Santiago de Cuba. "All Catalonia protests against the continuance of the special war taxes and insists upon their immediate repeal, threatening to close all the factories if this demand is not complied with."

Routing On Army Canteens. Washington, Sept. 2.--A ruling defining the tax requirements of liquor dealers at army canteens is made by Commissioner of the Internal Revenue Scott, in a letter written to the collectors of the service. The decision holds that the special tax of a retail liquor dealer, or malt liquor dealer, as the case may be, is required to be paid for the sale of alcoholic liquors at army canteens, if the canteens are not government agencies and the sales of liquor there are made for individual profit.

Auxiliary Cruiser Returned. Washington, Sept. 2.--The navy department will today deliver at Cramps in Philadelphia to four vessels formerly known as the New York, Paris, St. Louis and St. Paul. The ships are to be restored to the Cramps to the exact condition in which they were when taken by the navy department for use in the war.

NO OBJECTIONS. Macias Gives Brooke Permission to Travel Overland.

Ponce, Porto Rico, Sept. 2.--General Brooke has notified Captain General Macias, the Spanish commander at San Juan de Porto Rico, under a flag of truce carried to the Spanish lines by Colonel Goethal, that Rear Admiral Schley and General Gordon, the American-Porto Rican peace commissioners, had sailed for San Juan from New York on the steamer Seneca. At the same time General Brooke, who is also a member of the commission, asked if there was any objection to his proceeding overland with an escort. Major Jose Reyes of the Spanish army, brought the reply of General Macias. It was sent by wire and said there were no objections. Consequently General Brooke has arranged to leave tomorrow with his staff, escorted by Troop H of the Sixth cavalry, and Captain Pitcher's company of the Eighth infantry.

Several stone culverts between here and the Spanish works, on the crest of the mountains, which have been blown up, are being repaired by Colonel Goethal's engineers. The colonel has examined the Spanish fortifications. He says they are marvelously strong and that he could have held back the strongest army in Europe with 500 men against an assault in front. The Spaniards had trenches and two guns. All but 100 of the 600 men stationed there have returned to San Juan.

ARMY DEATHROLL. Statistics Showing Fatalities in the War With Spain.

Chicago, Sept. 2.--The Tribune prints statistics showing the number of soldiers who have been killed in battle and have died of disease in camps during the war with Spain. The Tribune says: While 339 officers and men have been killed in battle or died of wounds received, there have died of disease in camps between 1,200 and 2,000 volunteers and regulars. The Tribune has secured the names of 1,234 who died in camp, on transports or at home after contracting the dread malady at one of the camps.

There is no doubt about the 1,234 whose names have been secured. Neither is there much doubt that there are hundreds dead whose names could not be secured on account of lack of records and the inability or unwillingness of army officers to furnish lists of the dead. Deaths are attributed to the following causes: Typhoid fever, 515; yellow fever, 84; dysentery, 63; meningitis, 47; malaria, 81; pneumonia, 61; cause reported as fever, 106; miscellaneous ailments, or diagnosis not reported, 327.

Harrowing Tales. Little Rock, Sept. 2.--Two sleeping cars loaded with Arkansas volunteers on 30-day sick furloughs passed through the city last night enroute to their homes in various parts of the state. Several of them were very sick but they were unattended by physicians and no arrangements had been made for their care. Some harrowing tales are told by the soldiers of their treatment at Camp Thomas, and the men assert that conditions at Chickamauga have not been exaggerated.

Terms Not Agreeable. New York, Sept. 2.--Captain Eulate, who was in command of the Yscaya when she was sunk off Santiago, visited the office of the North German Lloyd Steamship company, yesterday and held a conference with the agent of the line with regard to transporting Spanish prisoners home. No satisfactory terms were agreed upon, however, and Captain Eulate said he would look elsewhere.

Lieutenant Morgan Drowned. Savannah, Ga., Sept. 2.--Lieutenant H. S. Morgan, U. S. engineer corps, in charge of the fortification work on Tybee island, and Henry Smith, a rigger, were drowned in Calabogue sound Wednesday afternoon in an effort to rescue the crew of the ill-fated Norwegian bark, Noe, which went ashore and was lost on Daufuskie beach.

Generals Merritt and Greene. London, Sept. 2.--The United States transport China, according to a dispatch from Hong-Kong to The Daily Mail, has arrived there with General Merritt and General Greene, the former enroute for Paris, to attend the proceeding of the Hispano-American peace committee, and the latter enroute to Washington.

Short In His Accounts. St. Cloud, Minn., Sept. 2.--L. T. Troutman, secretary of the St. Cloud Building and Loan association, according to a report which has been presented to the association by an expert accountant, is more than \$30,000 short in his accounts. It is thought a settlement will be made.

Glassworks Resume. Alexandria, Ind., Sept. 2.--Work was resumed at the Lippincott glassworks yesterday and 500 men are busy.

RENUMERATION. Indiana Soon to Be Paid For Equipping Volunteers. Washington, Sept. 2.--The abstract of Indiana's claims for supplies and equipments furnished volunteers for the war with Spain was named by the auditor of the war department yesterday afternoon. The amount of the claim is \$79,653.44. Just as soon as the vouchers are received the claim will be taken up and audited without delay. The indications are Indiana's claim will be among the first to be paid.

Cancer Causes Death. Jeffersonville, Ind., Sept. 2.--George Washington Blocher, 70 years old, who was a playmate of the late William H. English, died at his home in this city of cancer of the face. He was born in Scott county and lived on an adjoining farm to the English place during his boyhood.

DREYFUS CASE

Esterhazy Will Appeal Against His Enforced Retirement.

Paris, Sept. 2.--The movement in favor of a revision in the Dreyfus case is growing by leaps and bounds. Considering recent events, Major Count Walsin Esterhazy retains an amazingly cool attitude.

In the course of an interview he expressed astonishment that Lieutenant Colonel Henry was allowed to have a razor. Henry's death, he said, was regrettable, "because, doubtless, he had other revelations to make."

Count Esterhazy intends to appeal against his enforced retirement from active service in the army.

IRREGULAR METHODS

Used by Bidders to Secure Government Bonds on the Last Call.

TO MAKE INVESTIGATION

Solicitor O'Donnell Has Been Working on the Matter and Has Made His Report to Secretary Gage--Facts Withheld From Publication at Present For Prudential Reasons.

Washington, Sept. 2.--A wide investigation of suspicious bids under the last call for subscriptions to government bonds has been completed by Solicitor O'Donnell of the treasury department and yesterday he submitted to Secretary Gage the mass of testimony on the transactions. Several thousand subscribers were examined. The facts developed show a systematic scheme operated by single parties to secure a large amount of the bonds.

The investigation was the outcome of complaints alleging wrongful dealing on the part of many bidders. Secretary Gage promptly instituted the investigation and Solicitor O'Donnell yesterday, after submitting his report, held a conference for two hours with the secretary on the developments.

The reports indicate that millions of dollars in bonds were acquired by irregular means and that a number of New York bidders are involved in the cases. Many of the bids received from New York are shown to have been either signed by individuals who had no direct interest in them and subscribed their names simply at the request of, or in consideration of compensation by other parties, or the bids bore signatures that were forgeries.

Many of the bidders, it is stated, were hired to sign and the system was carried so far, the report goes to show, that virtual agents were employed who were paid so much per subscriber, the last named merely signing his name and giving the bid with his signature to the agent or directly to the party seeking control of a large amount of bids. The report and the exact facts are withheld from publication at this time for prudential reasons, but Solicitor O'Donnell says: "There is a large amount of fraudulent bids."

It is stated a further investigation is to be made and that the facts developed will be followed in action by the secretary. This may result in a refusal to issue bonds in all cases found to have been illegal. Secretary Gage said last night the investigation showed that a large amount of the bids offered were not bona fide, but that in none of the cases involved in the investigation had the bonds been issued to the bidders. He said he had no doubt, however, that in some instances, as yet undiscovered, bonds had been in a similar way, unknowingly to the department, had been issued.

GOVERNMENT LEDGER.

Statement of Receipts and Expenditures For August.

Washington, Sept. 2.--The monthly statement of receipts and expenditures of the government for August shows that the receipts from all sources aggregated \$41,782,707, an increase of \$22,729,093 over August, 1897.

The receipts from the several sources of revenue follow: Customs, \$16,249,699; internal revenue, \$24,015,934; miscellaneous, \$1,517,073.

The expenditures for the month aggregated \$56,290,717, an increase of \$21,672,670. The heavy increase on both sides of the ledger are due to the war expenditures on one side and the internal revenue law on the other.

Recommendation Complied With. Washington, Sept. 2.--Governor Tanner has recommended to the war department that the Illinois regiments which have armories be sent direct to those armories, instead of Springfield, to be mustered out. Those having no armories will go to Springfield. This recommendation is to be complied with by the department.

Believed to Have Been Murdered. Henshaw, Ky., Sept. 2.--There is excitement here over the death of David Davis, an old farmer, who was found dead on his knees in his stable with a rope around his neck. There is a suspicion that he was murdered and the body placed in the position in which it was found to indicate suicide.

STAYING UP NIGHTS

Watching Property From the Fire Fiends Torch--Situation Alarming.

Mt. Sterling, Ky., Sept. 2.--The fire situation here has grown alarming. That a deliberate attempt is being made to burn this city no one denies. In the past two weeks there have been about 20 fires, and thousands of dollars' worth of property has been destroyed. A close search has just disclosed the fact that several houses had been fixed ready for the torch. The regular police force is worn out with watching the fiends, and many citizens are up at night watching their property. No one can imagine why the crime is being done, as no certain person's property is being set on fire. People are wild with excitement, and if the guilty parties should be caught they will be lynched.

Appeal to Governor Tanner. Springfield, Ill., Sept. 2.--President Hunter and Secretary Ryan, United Mine Workers of Illinois, called on Governor Tanner yesterday. Hunter has just returned from Birmingham, Ala., where he has been striving to prevent further importation of negroes to take the place of white miners. The miners' officers urged Governor Tanner to exercise the power of his office to prevent any more negroes being imported into Illinois.

Battery Called Out. Galesburg, Ill., Sept. 2.--Battery B of the Illinois National guard received orders last night to leave at once for Panama, Ill. Sixty men with five Gatling guns, under command of Lieutenant Frank Henry, started immediately on a special train. Trouble between the striking coal miners and deputy sheriffs is feared because of the efforts of the mine operators to import colored miners.

Cable to the Philippines. New York, Sept. 2.--At a meeting of the directors of the Pacific Cable company held in this city plans were considered for establishing cable communication with the Philippines, the Asiatic coast, Japan and Australia via Hawaii. Surveys for a duplicate cable via Sitka and the Aleutian islands were ordered. James A. Strymer, president of the Pacific Cable company, will sail from Vancouver for Japan on Sept. 12.

Wholesale Shooting. Lexington, Ky., Sept. 2.--On Jack's creek William Brock, a tobacco planter, tried to exterminate the Smith family in that vicinity. Three Smith brothers quarreled with Brock over the division of a tobacco crop. Brock perforated the trio with buckshot, none fatally, however. Worley Smith is in the hospital here, and will likely lose his arm.

Wounded in Haymarket Riot. Chicago, Sept. 2.--Nicholas J. Shannon, one of the police officers who, May 1, 1886, helped to quell the Haymarket riot, is dead. The cause of death is undoubtedly the many wounds he received from the fragments of the bomb thrown by the anarchists. From the day of the Haymarket riot to the day of his death he was a sufferer from these wounds.

Burned Rapidly. St. Louis, Sept. 2.--Early this morning the 5-story brick building of the A. Geisel Manufacturing company took fire and within 20 minutes was destroyed. Loss, \$100,000.

Treasury Statement. Washington, Sept. 2.--The statement of the condition of the treasury shows: Available cash balance, \$294,387,084; gold reserve, \$217,904,484.

WIRE TICKS. Mrs. C. M. McClung of Knoxville, who fell from a hotel window at Saratoga, is dead.

Special hospital train left Columbus for the south to gather up sick Ohio soldiers and bring them home.

Dispatches from Chili indicate that no further complications with the Argentine Republic are probable.

Lieutenant Colonel H. E. McCallum, R. E. C. M. G., Governor of Lagos, will succeed Sir Herbert Murray as governor of New Foundland in October next.

Lawrence O. Murray, for several years chief of the organization division of the controller's office of the treasury, was sworn in as deputy controller of the treasury.

Miss Winnie Davis, who has been seriously ill at Narragansett Pier with gastritis, is much improved. She is now able to take nourishment, for the first time in several days.

The bankruptcy of E. D. McConky is announced in London, with liabilities estimated at \$500,000. He was formerly a railroad contractor in New York and failed in Baltimore during the year 1877.

WROUGHT UP.

Horrible Stories of the Neglect of Soldiers at Chickamauga.

Frankfort, Ky., Sept. 2.--Governor Bradley is wrought up over the horrible stories of dying and neglected soldiers at Chickamauga, and will send a special train tomorrow to bring the Kentucky soldiers home, if the necessity for such action does not disappear before then. The governor has telegraphed to Secretary Alger, asking permission to bring the sick home, and the request was granted. He then ascertained that there were 119 sick soldiers from the First and Third Kentucky at Newport News and 79 of the Second Kentucky at Chickamauga. All will be brought home as soon as practicable.

GENERAL SHAFTER.

with the phases of the case, nor will I enter the controversy at any time. Secretary Alger and General Miles can take care of themselves, and so can I. "The Red Cross and other nurses did good work at Santiago, but the front is hardly the place for women. There was never any real scarcity of food in Cuba, but there were no transportation facilities to get supplies to the front, other than packtrains. "The army and sick in hospitals down there fared as well as possible in such a climate."

When told that it had been denied that there was yellow fever at the camp at Santiago, General Shafter said that it was nonsense as there was yellow fever there and the doctors in Santiago, who knew it like a book, said it was yellow fever and nothing else. Santiago was on the ground, the general said, and the sanitary measures taken by the Americans were having a good effect.

CABINET DEADLOCK.

Spanish Officers Not Yet Named--Other News From Spain.

Madrid, Sept. 2.--The deadlock over the appointment of the members of the peace commission continues.

The cabinet sat last evening in concert, the queen regent presiding. Senor Sagasta, the premier, made a statement as to foreign policy.

Lieutenant General Correa, minister for war, read a dispatch from General Eos, acting governor general of the Spanish territory in the Philippine Islands, announcing that he had acceded to Admiral Dewey's request to open

Ah, that sad moment when we hear Death's awful pinions hovering near Above the one we hold most dear. We know that death must come to all, but we can never surely predict when the dread angel will appear. No matter how imminent the summons may seem, it may still, in God's good providence, be far away. It is part of man's humanity to man to avert sick-ness and death as far as lies in mortal power. Nearly thirty years ago, an institution was founded in Buffalo, N. Y., known as the Invalids' Hotel and Surgical Institute, which has since become one of the most famous institutions in the world for its enormous benefits to the sick and suffering all over the United States. Thousands have come there for treatment and tens of thousands have received professional advice by mail with suggestions for inexpensive home-treatment, whereby they have been cured of severe, and in many instances, apparently hopeless diseases.

A Massachusetts man, Mr. John Brooks, of Boylston, Worcester Co., writes: "About a year ago I was taken with a bad cold which settled on my lungs. The doctors said I was in consumption and could not get well. I took Emulsion of Cod Liver Oil and it did me no good. After taking it four months I heard of your 'Golden Medical Discovery,' and wrote to you for advice. I have taken your medicine and it saved my life. I felt so sick when I wrote to you that I thought I would not live through the winter. In the morning I raised an awful lot and would spit all the time and had pains in my chest. My bowels would not move more than once or twice a week; my strength was nearly gone; I could not do a whole day's work. Now, my bowels are regular every day and I feel no more pain in my chest. CONVENTION CALL.

Whereas a majority of the democratic voters of Jackson county have repudiated a so called democratic primary election and the nominees of said primary election, which was in its rules and regulations governing said primary, so unfair, unjust and undemocratic that more than three-fourths of the democratic voters of the county refused to recognize the said primary or participate in said primary election, and

Whereas the republican county central committee at a regular and full meeting of the committee, held in Seymour on the 18th day of August, 1898, declared themselves as willing to affiliate with all voters of Jackson county who were opposed to the so called democratic ticket and appointed a committee of five members of their county committee to confer and arrange with a like committee of five democrats, as to time, manner, etc., of holding a convention of the independent voters of Jackson county, therefore be it resolved by this joint committee of five democrats and five republicans:

ANNOUNCEMENT.  
FOR CLERK.

JAMES W. LEWIS, of Vernon township, is a candidate as a republican for county clerk on the fusion ticket hereafter to be named.

Prof. Charles Elliot Norton has probably taken his advance degree abroad. He finds too many things to criticize in the government of his own country.

"Millions for sick soldiers, but not a cent for democratic campaign trickery," is the proper attitude to assume toward a prominent question of the day.

Even though Bailey is the democratic leader in the house of representatives he is evidently not the leader of his party in his own state, Texas.

The democrats are looking for some good excuse to drop the 16 to 1 argument. The hardships of soldier life they seem to think will be a good subject for them to talk about.

That little coterie of bosses who have either held the offices in Jackson county or dictated who should hold them for so many years are on the run. They begin to realize that their high handed methods are not approved by the people and that the ticket to be nominated September 17, will be triumphantly elected.

It is the truth that the people want. Sensational stories about the condition of our troops in camp may be made to read well, but that is not sufficient. The people want the facts as they really exist. They will be satisfied with nothing else. It is quite evident now that much of the criticism is partisan, and that the party of fault finders are searching for some good excuse to drop the 16 to 1 heresy.

Gen. H. V. Boynton is a soldier of large experience and a man of unusual knowledge of public affairs. He is well known as a writer and noted for his careful investigation and conscientious statements. After a full examination of the situation at Camp Thomas he makes his official report on the camps at Chichamauga since their establishment a few months ago. About 75,000 troops have been assembled there. Of this immense number 122 have been buried in the national cemetery. Comparatively speaking, the mortality has been low. There have been outrageous exaggerations set afloat and Gen. Boynton's report refutes them with convincing clearness.—Globe Dem.

Stood Death Off.  
E. B. Munday, a leading attorney, of Henrietta, Tex., tells how he once fooled a grave-digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters and he was soon much better. He quit using it too early and had a relapse; again took the bitters until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50 cents at W. F. Peter's Drug Store.

Johnson county fair excursions via Pennsylvania lines, Aug. 30th to Sept. 3d, inclusive, low rate excursion tickets will be sold to Franklin from Seymour, Indianapolis, North Vernon and intermediate station. Return course good Sunday, Sept. 4th.

OUR CITY SCHOOLS.

Will Begin Another Year's Work Next Monday.

After a vacation of three months pupils and teachers are preparing for the duties of the school room. Much activity will be manifested from now on in getting all things in readiness for the opening day. A preliminary meeting of the teachers is being held today. Superintendent Montgomery has spent a large part of the summer in his office outlining plans and systematizing the work of the several departments. In the teachers meeting today he has been giving the benefits of his summer's work to the teachers, who in turn will carry it into effect in the every day duties of the school room.

Quite a number of the teachers have spent a part of the summer away from home in study and return to their work more fully equipped than ever before.

The corps of teachers for the year and their assignments are as follows:

A CRITICAL TIME  
DURING THE BATTLE OF SAN-  
TIAGO.

Sick or Well, a Rush Night and Day.

The packers at the Battle of Santiago de Cuba were all heroes. Their heroic efforts in getting ammunition and rations to the front saved the day.

P. E. Butler, of pack-train No. 3, writing from Santiago, De Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect savior of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our packtrain before we left Tampa and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by C. W. Milhous.

Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about much as coffee. 15 and 25c.

SPRAINS.

Why They Are So Severe and How They Should Be Treated.

It is commonly said that a sprained joint is worse than a broken bone, and this is often true, for in a severe sprain the injury is really greater than in a simple fracture. The ankle is perhaps the most frequently sprained of all the joints, though the knee, elbow and wrist are also very liable to be injured, in falls especially.

A sprain of a joint varies greatly in severity. It may consist of a simple wrench, without the tearing of any of the ligaments, or it may be a more extensive injury, stopping just short of a dislocation.

In a moderately severe case one or more of the ligaments of the joint will be torn slightly, or possibly completely across. The membrane beneath the ligaments, which retains the lubricating fluid of the joint, will be ruptured, permitting the escape of more or less of this fluid into the parts about, and giving rise sometimes to a considerable swelling. This swelling may be increased also by an effusion of fluid into the joint, especially if inflammation sets in, and finally there is usually a slight or even sometimes a quite pronounced escape of blood into the tissues, and this, gradually working to the surface, appears as a black and blue stain.

In more severe cases the tendons passing over the joint and attaching the muscles which move it to the bones may suffer considerable damage, or one of them may be broken or torn from its attachment, bringing with it a sliver of bone. Where so much harm has been done to all the parts—bones, ligaments, tendons and muscles—it is easy to understand that much pain will result and that the cure will be tedious.

In the treatment of a sprain the first thing to be aimed at is to relieve pain and prevent inflammation, then to favor healing of the torn structures, and after that to restore the use of the limb.

The first of these objects is accomplished by absolute rest of the injured part, the limb being raised, and by lead and opium wash, a spirit lotion, or such other local applications as the physician may prescribe. Swelling is prevented in a measure and pain is sometimes relieved by firm bandaging with a flannel bandage.

When the swelling, heat and pain are gone, the limb should not be used too soon, but should be brought gradually back to health by cold douching, dry rubbing in a direction toward the body and passive motion. It is sometimes necessary in very severe cases to treat the sprain by means of splints, exactly as if it were a fracture or dislocation.—Youth's Companion.

INQUISITIVE SPARROWS.

They May Have Been Hostile, but They Didn't Dare Attack the Cockatoo.

There was trouble and to spare one day last week in a back yard on Brooklyn Heights. The cause of it was an innocent cockatoo which had flown away from home and found its way to the top of a tree near State street, between Henry street and Garden place. Where the strange bird came from there is no body to tell.

It was first discovered by the large and noisy colony of English sparrows which inhabits that vicinity. The first sparrow to see the foreigner lost no time in communicating the news of its discovery to its mates, and in three minutes no less than 50 sparrows had assembled to examine the strange visitor and exchange views about him. They took places on all sides of the cockatoo and began a chattering which soon attracted attention from all the neighboring windows. They hopped about from branch to branch, but never approached nearer than a yard to the puzzled stranger. For a time the cockatoo viewed the concourse about him with serenity, but the strain became too much for him, and finally found expression in a series of the most penetrating screeches, accompanied by the elevation of his light green plume, which had previously been partly concealed in his fluffy, snow white feathers. This demonstration added threefold to the wonderment and fright of the sparrows and increased the volume of their chattering in like proportion.

But the unwelcome foreigner soon found that the chattering was harmless, and that the sassy sparrows lacked the courage to make an attack. Finding himself surrounded on all sides by the little nuisances, he gradually worked his way through one side of the circle and out on the end of a branch, where he perched contentedly and viewed his tormentors with the calmest indifference. Having found that the intruder would neither take nor give offense, the sparrows one by one flew away, leaving the cockatoo to take a nap in peace and quiet.

Meanwhile the cat colony of the back yards had been aroused by the unusual activity of the feathered tribe, and there had been a gradual concentration of the feline forces near the base of the tree which formed the cockatoo's perch. This meant a cat fight as sure as preaching, and it was not long before the hostilities broke out. Then the dogs had their turn, and the cats disappeared, but to the last the cockatoo sat unruffled in his feathers in the tree top.—New York Sun.

CORONATION SERVICES.

Tenure of Land on Condition of Personal Duty to the Sovereign.

Florence Hayward describes Queen Victoria's coronation roll in *The Century*. The writer says:

After telling how the privy council was formed into a commission "to hear the petitions of the lords, great men, nobles, knights and other with regard to services, duties, attendances, offices, fees and rights connected with the ceremony of coronation," the roll states what these petitions were, or at least such of them as were granted.

One was that the Duke of Norfolk, who claimed "the right to find for the queen on her day of coronation a glove for her majesty's right hand and to support the queen's right arm on the same day as long as her majesty shall hold in her hand the royal scepter, the petitioner holding the maner of Workop by the aforesaid services." In other words, if the Duke of Norfolk had failed to provide the glove or to support her majesty's arm at that particular time his ownership of Workop maner would have been invalidated and the property have reverted to the crown.

Another petition was that of Barbara, Baroness Grey de Ruthyn, who, as the head of her family, claimed the right to carry the great spurs before her majesty on the day of her coronation and asked that George, Lord Byron, be appointed her deputy for the performance of that duty.

Yet another was that of Francis twelfth earl of Huntingdon. The earl dom of Huntingdon had remained suspended for many years owing to the tenth earl dying without issue. When, however, this twelfth in the line of succession succeeded in establishing, as a descendant of the second earl, his right to the peerage, he also claimed the right to carry one of the four swords of state in the coronation procession, this, as well as other duties and services connected with the ceremony, being the condition of his tenure of lands. Small wonder, then, that in announcing the omission of the procession it was important to set forth also that the non-performance of duties connected with it should entail no forfeiture.

Latinized English.

There was a period in the history of English literature, says Professor Mark H. Liddell in *The Atlantic*, when the ideal of a perfect sentence was one in which English thought was so run into a classic mold as to make the English reader stand on his head to see the meaning of it. That was because the obvious fact in most Latin sentences was a periodic structure. It was an easy road to beautiful expression to assume this perfection for English sentences and make them conform to it. Men shut their eyes to a multiplicity of form in English writing which they did not understand and chose out of a foreign tongue a single form which they did. In the same way a false type of beauty has often been set up in high places where men should look for a real one.

Socialistic Extremes.

Wallace—The very idea of socialism is ridiculous.  
Ferry—Do you really think so?  
Wallace—Of course I do. Just fancy your clothes not belonging to yourself, but to the common stock. That sort of thing is all right with umbrellas and cigars, but it ought to go no further.—Cincinnati Enquirer.

Omnibuses were originally started in Paris in 1662. They died out, however, and were not revived till 1827. Two years later they were adopted in London.

Asiatic cholera was first supposed to have originated from the consumption of unsound rice and was called "the rice disease."

Japanese Love For Children.

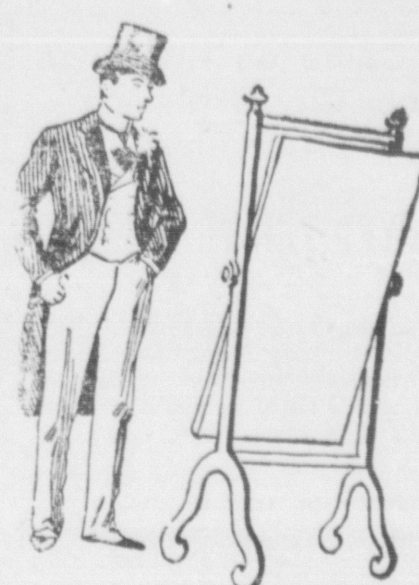

Next to their frugality and exquisite neatness a remarkable thing about the Japanese is their great love for the little folks. They have an extraordinary talent for making their doll babies happy. They are forever inventing comical toys and designing fantastic little playthings to amuse them. With us the grandfathers and grandmothers are the children's playfellows and best friends. Over in the sunny little empire all the world has nothing more important to do than to provide the pleasure of his own child or the Mr. Little Boy or Miss Little Girl of his neighbor, as they are always called. At the bazaars, on fete days, at festivals and concerts, the indescribable little creatures are seen picking about, with their sweet, round yellow arms tightened lovingly about some big sister's or big brother's neck. They have peppered jam, iced beans and pickled sweetmeats to their hearts' content, delicious tarts jellied to laurel or lemon leaf, and as many dolls, kites and colored lanterns as they can possibly carry away from the booths.—Tokyo Letter.

Twenty Stories of Mark Twain.

Mark Twain's the next famous man to be "anelectrized," by the Ladies Home Journal, and his closest friends have contributed twenty funny stories about the humorist for the article. The stories will show that all the good things about Mark Twain have not been told. Several ludicrous "snip shot" pictures of Mark Twain have also been loaned by his friends—all printed for the first time.

A young man who left here last fall

the many similar days experience of  
prospectors in that region. He says:  
"Easter Sunday was our last day on the  
Skaguay side of the summit. Arose at 3  
o'clock, ate breakfast at 4 o'clock, pack-  
ed up our stuff at Camp 4th, four miles  
below the summit, left at 6 o'clock, pulled  
our loads of about 300 pounds each on  
our sleds up that almost perpendicular  
trail, and reached the summit at 12  
o'clock. Five of us had six biscuits for  
dinner and started down to Log Cabin, 16  
miles from the summit, reaching there  
at 9 p. m. We were positively so tired  
that we could not put up a tent. And  
though six baking powder biscuits was  
all we had to eat since breakfast we  
were too tired to cook, but just rolled  
out our bedding on the snow and piled  
in. The next morning we could hardly  
squirrel out of bed."

**Brave Men Fell.**

Victims to stomach, liver and kidney  
troubles as well as women, but all feel the  
results in loss of appetite, poisons in the  
blood, backache, nervousness, headache  
and tired, listless, run-down feeling. But  
there's no need to feel like that. Listen  
to J. W. Gardner, Idaville, Ind. He  
says: "Electric Bitters are just the thing  
for a man when he is all run down and  
don't care whether he lives or dies. It  
did more to give me new strength and  
good appetite than anything I could take.  
I can now eat anything and have a new  
lease on life." Only 50 cents at Wm. F.  
Peter's Drug Store.

**Weeds Must be Cut.**

The Health officer was instructed to  
give notice through the paper to prop-  
erty owners to cut the weeds on their  
lots. And if not done within 3 days  
after notice is given to bring suit against  
each and everyone of them not com-  
plying with the notice.

The above order of the city council  
must be complied with by Sept. 3, or
